

Skills Index

Below is an alphabetical listing of all activities found in the *Project WILD Aquatic K–12 Curriculum and Activity Guide*. Also listed are the page numbers, suggested grade levels, settings (indoor or outdoor), and skills addressed for both cross discipline and subject-specific areas. Under Grade Level, an E indicates that the activity correlates to national learning standards for grades K–4, an M for grades 5–8, and an

H for grades 9–12. The specific skills for each subject area can be found on the Project WILD website at www.projectwild.org.

SYMBOL NOTE: The dot and triangle symbols are of equal value. They were used to help distinguish between the Cross-Discipline Skills and the Subject Area Skills.

Topic Index

Below is an alphabetical listing of all of the activities found in the *Project WILD Aquatic K–12 Curriculum and Activity Guide*. Also listed are the page numbers, the approximate duration of the activity, and the broad topic categories for each activity.

GRADE LEVEL NOTE: An E indicates that the activity correlates to national learning standards for grades K–4, an M for grades 5–8, and an H for grades 9–12.

DURATION NOTE: The length of the activity is listed by a letter code: A = up to 45 minutes, B = 45 to 60 minutes, C = 60 to 90 minutes, D = 90 minutes to 3 hours, E = over 3 hours, and V = variable length.

TOPIC NOTE: Many of the topics listed incorporate important subtopics. For instance, *Biodiversity* includes *Endangered*, *Invasive*, and *Exotic Species*; *Change* includes *Succession*; *Environmental Quality* includes *Pollution*, *Acid Rain*, *Erosion*, and *Eutrophication*; *Population Dynamics* includes *Predator and Prey Relationships* and *Limiting Factors*; *Sustainability* includes *Conservation*; and *Food Chains* includes *Food Webs*, *Energy Transfer*, and *Trophic Relationships*.

Additional topics are indexed in the Expanded Topic Index on pages 244–250.

SYMBOL NOTE: The dot and triangle symbols are of equal value. They are placed in alternating columns for ease of tracking down the column.

Expanded Topic Index

The following is an alphabetical listing of topics included in Project WILD Aquatic activities. This is not a comprehensive listing; that is, it does not list every possible topic. It does, however, include topics that might be included in an elementary or secondary course of study in a variety of subject areas.

Activities are listed alphabetically, not according to the degree to which they emphasize the topic. We hope this serves to assist in your curriculum planning as you integrate Project WILD Aquatic activities into existing courses of study and other instructional programs.
